

# William J. Moore III

Greensboro, NC | 336-830-6221 | WilliamJMooreIIICareer@proton.me | williamjmoore3.com | github.com/Wjmoore32001

## SUMMARY

---

Computer Science senior at UNC Greensboro focused on software engineering, full-stack development, data analysis, and AI fundamentals. Strong foundation in Java, Python, C/C++, SQL/PostgreSQL, Linux, systems programming, data structures, algorithms, and database systems, with project-based experience using SQL to turn business datasets into clear recommendations.

## SKILLS

---

**Languages:** Java, Python, C/C++, SQL | **Tools/Frameworks:** Spring, PostgreSQL, Git, Linux, Vim, Jupyter, Pandas | **Core:** Data Structures, Algorithms, Debugging, System Programming, Software Engineering, Technical Writing

**Data Analysis:** Joins, CTEs, CASE logic, GROUP BY, HAVING, subqueries, aggregation, filtering/sorting, basic visualization, business recommendation writing

## EDUCATION

---

**University of North Carolina at Greensboro** — Bachelor of Science in Computer Science | *Expected 2027*

Overall GPA: 3.41 | Major GPA: 3.62 | Classification: Senior

**Relevant Coursework:** Software Engineering, Advanced Data Structures, System Programming, Principles of Database Systems, Theory of Computation, Concepts of Programming Languages, Foundations of Computer Science I/II, Computer Organization/Assembly, Statistics, Calculus I

**In Progress/Registered:** Artificial Intelligence, Algorithm Analysis/Design, Operating Systems, Calculus II, Global Career Accelerator

## PROJECTS

---

**Data Analytics Projects — Global Career Accelerator** | *Summer 2026*

- Completed SQL analyses across sustainability, product analytics, construction demand, and public transit datasets, translating results into business recommendations.
- Built queries using joins, CTEs, CASE logic, GROUP BY/HAVING, subqueries, date-based aggregation, calculated fields, and filtering/sorting to analyze multi-table datasets.
- Produced four selected portfolio artifacts: Intel sustainability impact, GameJet microtransactions, construction/weather demand, and London Underground ridership analysis.

**EzyReadComics — Django/PostgreSQL Reading-Map Application** | *In Progress*

- Designing a web application to organize comic reading orders and model a current-reading-era algorithm using Django, PostgreSQL, and structured backend logic.

**Personal Portfolio Website** | *williamjmoore3.com*

- Built and deployed a personal portfolio site from scratch using GitHub and Cloudflare Pages to showcase projects, coursework, resume, and technical growth.

## WORK EXPERIENCE

---

**Mosquito Squad** — Technician, Greensboro, NC | *Jan 2023 – Jun 2023*

- Serviced 10-20 residential properties per day using commercial-grade equipment while following safety and treatment procedures.
- Operated company vehicle across assigned routes to complete approximately 60-80 client visits per week.
- Communicated directly with homeowners to explain treatments, answer questions, and maintain customer satisfaction.

**PetSuites** — Dog Trainer, Greensboro, NC | *Jan 2021 – Jan 2023*

- Trained 5-10 dogs daily through group and one-on-one sessions focused on obedience, behavior modification, and enrichment.
- Coordinated client communication, progress updates, and social media content to support training outcomes and customer relationships.
- Applied structured problem-solving to analyze behavior issues, test training methods, and achieve measurable obedience improvements.

**Chick-fil-A** — Kitchen Hand, Winston-Salem, NC | *Jan 2019 – Jul 2020*

- Prepared and assembled 50+ meals per shift while coordinating with kitchen and front-line teams to maintain order accuracy and speed.
- Maintained food safety, quality, and cleanliness standards in a fast-paced kitchen environment while balancing 20+ hours per week with school commitments.
